

NOTICE

Residents of Pickman Park

Please be sure to properly secure your trash, prior to placing it out for pickup. All trash must be secured, no loose items, please (including recyclable items).

While on site, I noted many owners have not covered their trash and recycle bins were blown over, creating quite a mess. The birds peck open the trash bags if garbage is placed inside.

All recyclable items should be placed in the proper containers and items should be properly secured to be sure items do not blow away.

Please do not place your trash out prior to the morning of pick up.
